

Utility Services - Automated Metering Infrastructure

NYSTEC proudly serves state and local government throughout New York and is well regarded as a Trusted Technology Advisor. Noted for bringing clarity to complex technological projects, NYSTEC specializes in providing IT Support to municipal utility providers. NYSTEC has specific expertise to assist you in the delivery of your automated metering program:

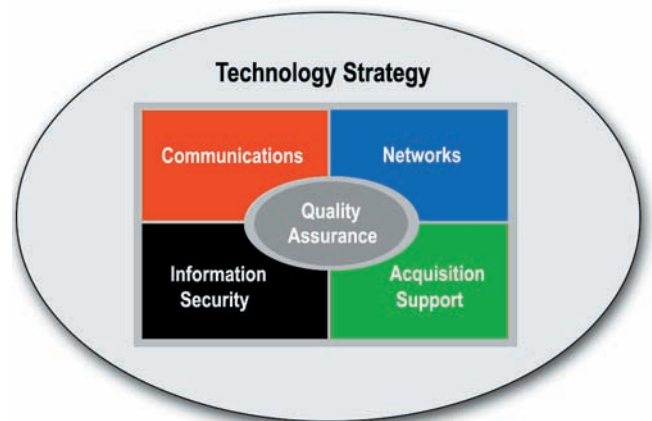

NYSTEC is experienced with large automated metering systems.

We are currently assisting a large municipal agency to deploy the nation's largest Automated Metering Infrastructure project. With more than 850,000 water meters, the agency looked to NYSTEC to assist with vendor negotiations, contract development, engineering design, and quality-assurance monitoring.

NYSTEC's Technology Strategy covers all aspects of your automated metering initiative.

Our staff of 56 professionals possesses expertise in the following competencies:

- ◆ RF Engineering
- ◆ Spectrum Management & FCC Licensing Services
- ◆ Network Engineering & Information Security Services
- ◆ Writing RFPs/Acquisition Support
- ◆ Quality Assurance / Quality Control over Vendors
- ◆ Project Management / Oversight

NYSTEC is independent of vendors.

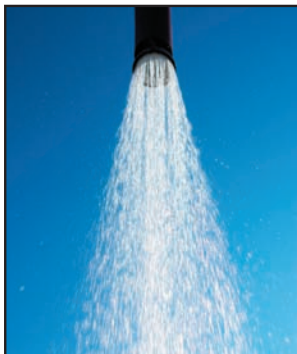

We do not manufacture or sell AMI system hardware or software and we are not affiliated with vendors. This will provide a level of comfort/assurance that you will be receiving advice that is in the best interests of your project.

NYSTEC's not-for-profit status is an advantage for you.

We were created as a 501(c)(3) not-for-profit corporation. Our status as a not-for-profit corporation enables us to provide cost-effective and timely professional services to our clients.

NYSTEC's OGS contract gives NYS municipalities immediate access to engineering IT and RFP support.

NYSTEC has a single source contract (CM00524) with the New York State Office of General Services that eliminates the need for an RFP and makes it quick and easy to get going.
